Tip #1, Earn Diamonds by Adding: Once you make a TV in your coffee, you can click to watch add and earn diamonds. You will get 1 diamond for every addition observed. The addition lasts about 15-30 seconds each so it is a good way to earn some free diamonds while you have free time. Sometimes the TV will be turned off (no graphics will be displayed), at which point you can't watch any additions. Go back to the last time and check it out. The similar situation is true for when you click the "Watch" button and says "No more videos", it returns a second last time and checks again. Tip #2, Maximizing Your Earned Tips: The game offers many choices when it comes to decorating your coffee with wall decoration, flooring, plants, bar counters, table, etc. All the items in the store are of a certain "style" (e.g. Chinese, French, loft, etc.). Building your coffee with 1 style will grant you more than 1% of the tips. Having multiple styles in the same coffee will significantly reduce your earned tips. You can see how much% of the tips you're gaining by talking to Fernando. Tip #3, save on expansions: Expanding the size of your coffee can be very burdensome on you as it tends to cost more and more as you continue to expand. Expand coffee only when it is extremely necessary. Note: Spending money on expansions The dose does not give you any experience for the money spent! Tip #4, Shopping Earn Experience: Whenever you buy anything from the store for gold, you take some experience along with it. You can see how much experience you get by clicking on the (!) icon on the item. This also applies when you upgrade any equipment. The experience gained will depend on how expensive the item or upgrade is. You can use this method to get an experience when you are replenished with funds to level out faster. Tip #5, Earn the Daily Gift: Ann, your first bartender has 3 special skills. It is advisable to climb up your daily gift skills at the beginning of the game so you receive some free spices a day. Tip #6, Floors and Backgrounds: Floors and backgrounds act differently than other items.

While you can place all other items in storage, floors and wallpapers cannot be placed. If you replace any floor or wallpaper, the previous one will disappear forever.
